Lyman Publishes New 4th Edition Cast Bullet Handbook

For Release: Immediately
January 2010

Lyman's new 4th Edition Cast Bullet Handbook Offers The Newest And Most Comprehensive Cast Bullet Reloading Data

Lyman – the leader in bullet casting and reloading manuals – introduces the first new cast bullet data manual in 30 years. It contains data using the latest and most available components for bullet casters.

In addition to chronicling data for Lyman's entire line of rifle and pistol moulds, the new 4th Edition Cast Bullet Handbook is the first with data for selected moulds from other manufacturers where those bullet designs or weights would be of interest to cast bullet experimenters. New calibers like the Ruger Compact Magnums, .327 Federal have also been added as have a number of black powder loads for the popular older cartridges.

Like Lyman's other popular handbooks, this large edition covers valuable "how-to" editorial as well as important new articles by acknowledged authorities in the field like Mike Venturino. The wealth of information and data contained in this new edition cannot be found in any other handbook, whether published by Lyman or any other source.

The Lyman Cast Bullet Handbook 4th Edition, as well as all Lyman products and brands, are available nationally through firearms and sporting goods dealers and mail order companies. Pachmayr, TacStar, Trius Traps, A-Zoom Precision Snap Caps, Butch's Gun Care, Uni-Dot and Targdots are also Lyman brands.
