Lyman E-Zee Case Gauge II

For Release: Immediately
January 2008

Lyman's New E-Zee Case Gauge II Now Precisely Measures Over 70 Rifle and Pistol Cartridge Cases.

Lyman Products - a leading manufacturer of precision tools for reloaders - has introduced their new E-Zee Case Gauge II. Measuring over 70 popular American and metric rifle and pistol cases, this latest model handles 28 more than the previous model. Popular new cartridges include the new Winchester Short Magnums, the 204 Ruger and the .500 S&W. The simple slide-through design allows fast, easy and precise sorting of fired or resized cases based on SAAMI recommended maximum case length.

Each rugged metal E-Zee Case Gauge II is carefully crafted and CNC finish machined for superior, long-lasting precision. In addition, the gauge displays the maximum length dimension for each case in inches and has both inch and metric measuring scales.

Lyman's new E-Zee Case Gauge II, as well as all Lyman products and brands are available nationally through gunsmiths, firearms and sporting goods retailers and mail order companies. Pachmayr, TacStar, Trius Traps, Butch's Gun Care, TargDots, Uni-Dot Sights and A-Zoom Precision Snap Caps are all Lyman Brands.
