Lyman Introduces New Turbo[®] Rotary Case/Media Separator

For Release: Immediately
January 2011

New Rotary Case/Media Separator from Lyman makes removing polishing media from polished brass faster and easier.

Lyman – a leader in the field of case preparation and reloading products – has introduced added a new Rotary Case/Media Separator to its line of Turbo[®] Case Prep Accessories. The new item speed case prep by quickly and easily separating clean cases from cleaning media with a simple, manually operated rotating basket system. Polished cases and media are emptied into the open separator basket, the unit is then closed and the handle is turned through a few rotations. The media falls to the bottom of the separator, leaving the cases clean and ready to use.

The separator also traps the fine dust from the media inside the unit. Made of heavy duty material, this product will provide years of trouble free use and can process approximately 180 .30-06 cases or 400 .38 Special cases in media.

The Lyman Rotary Case/Media Separator, as well as all Lyman products and brands, are available nationally through firearms and sporting goods dealers and mail order companies. Pachmayr, TacStar, Trius Traps, A-Zoom Precision Snap Caps, Butch's Gun Care, Uni-Dot and Targdots are also Lyman brands.

Turbo Rotary Case/Media Separator (#7631325) \$42.95
Now Available!
