SECTION 4: FIRST AID MEASURES

4.1 Description of First Aid Measures

Eye: Flush victim's eyes with water, while holding the eyelids apart. Get medical attention if irritation persists. If product is hot, flush eyes with large quantities of water, while holding the eyes lids apart. Get immediate medical attention.

Skin: Wash skin with soap and water. If product is molten, cool skin with large amounts of water. Do not remove material bonded to the skin. Do not apply salves or ointment. Get immediate medical attention. Launder clothing before re-use.

Inhalation: In solid form, no adverse effects are expected. If vapors or fumes from molten material are inhaled and irritation or symptoms occur, remove victim to fresh air. If breathing is difficult have qualified personnel administer oxygen. If breathing has stopped, administer artificial respiration. Get medical attention if irritation or symptoms occur.

Ingestion: If small quantities are swallowed, rinse out mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious or drowsy person. If large amounts are swallowed or if irritation or discomfort occurs, get medical attention.

4.2 Most Important symptoms and effects, both acute and delayed: Vapors or fumes from molten material may cause eye and respiratory tract irritation. Contact with molten product may cause thermal burns. May elicit an allergic skin reaction in already sensitized individuals.

4.3 Indication of any immediate medical attention and special treatment needed: Immediate first aid should not be needed.

SECTION 5: FIRE AND EXPLOSION DATA
